## Atom Bombs Away

By Merwin K. Hart  
Pres. National Economic Council, Letter No. 228

In Letter 226 we spoke of the thrill Americans felt when twelve men and women found eleven Communist leaders guilty of conspiring to overthrow the Republic by force and violence.

It showed what the people—as compared with some vote-seeking politicians—think of Communism, and what they are willing to do about it. If they felt any doubt, they gave their country the benefit of it

Judge Medina, before whom the case was tried, refused to release the convicted men on bail, pending appeal. Probably he remembered that Gerhard Eisler fled the country while his appeal was pending—and is now in the cabinet of the Communist Government of East Germany; that the Communist-influenced British Labor Government, to whom we are giving a billion a year, refused to hold him and turn him over to us; and that American Communists, having access to all they need of the wealth of Soviet Russia, could well afford to make good the \$23,500 bail Eisler jumped.

But on appeal, three Judges in the U. S. Circuit Court of Appeals reversed Judge Medina. They released the Reds on \$260,000 of bail for the lot. Of course, to the Communists this sum is small. To Communist Russia, it would be worth many times that sum to have these traitors to America make their escape and become available for activity elsewhere. And should their appeal finally be lost, we would be surprised if any of them were found within the jurisdiction of the court that sentenced them.

The Circuit Judges may have been technically right, yet there could be no better evidence that American officialdom has not yet sensed that Communism threatens all Americans with permanent slavery, than the willingness of these supposedly enlightened Judges to turn these criminals loose to continue their treason.

They gave these Communists the benefit of any doubt.

### Time for Full Knowledge

The American Administration, as well indeed as these Judges, clearly seem to be allowing Soviet Russia to proceed, practically without let or hindrance, in her plans for the subjugation of the entire world.

In November, 1948, it was known by private authorities that Soviet Russia expected to make its first atom bomb by June of 1949. These same authorities knew in June, 1949, that Soviet Russia had completed and successfully detonated a bomb.

This information was brought to the attention of President Truman and Prime Minister Atlee. Both refused to believe it. They believed it only when enough scientific information had been gathered by seismic apparatus commonly used to detect earthquakes. It was not till September 23rd that Mr. Truman made his rather guarded statement that Russia had set off an atom bomb.

Soviet Russia's plans for subjugating the world by not later than 1952 or 1953 are known to certain authorities. We have questioned them,

(Continued on page 4)

## KUHN-LOEB BEHIND NEW U. S.-GERMAN POLICY

By Major Robert J. Williams, former counter-intelligence officer, research specialist, and author of "The Anti-Defamation League and Its Use in the World Communist Offensive," "Untold Story of State Medicine".

Acheson's trip to Paris and Germany and his announced intention to slow down the dismantling of German industry and let the Germans get off the American WPA and perhaps even build a small defense force, is excellent news if it is not prompted by unwholesome motives.

Does the new policy mean that Acheson now intends to favor the German people against Communism and Zionism, which have joined in the degradation of the German segment of Christian civilization?

The new policy is inconsistent with the rest of the Truman-Acheson policies, as for example, throwing China to Stalin and denying recognition of Red China in such a way as to show the planned intent to recognize that gangster regime at some future time, and retaining known pro-Communists in the State Department, and claiming Alger Hiss as his close friend. Hiss is a protege of Felix Frankfurter from Harvard Law School and admitted to a Congressional Committee that Frankfurter got him into high office in the government.

Acheson himself is one of Frankfurter's favorites from Harvard Law, as is John J. McCloy, now High Commissioner of Germany, and it is no secret that the eminent Jewish revolutionary got them appointed and dominates the U. S. State Department. It is no secret that Acheson moved near Frankfurter's residence and walks almost daily with the pro-Moscow Marxist—who is also one of the world's leading Zionists.

There is no break between them. If Acheson tried to break with Zionism the Zionists would break a storm of defamation over his head as a "bigot" and "hate monger" on the networks and in the press, and like Forrestal, he would be driven out of office.

### THE CLEW

Newspapers of Sept. 20 and 21 give us a clew to the mystery: They announced that Benjamin J. Buttonwieser had resigned from the international banking firm of Kuhn, Loeb and Co. "to become Assistant High Commissioner in Germany" where he "will act as general adviser to both Mr. McCloy and General Hays."

Evidently, then, Kuhn, Loeb and Co.—for half a century identified with both Communist and Zionist activities—has plans for the development of subjugated Germany, and evidently Mr. Frankfurter is willing to have German industry revived if under Zionist masters.

Here we see once more, as so often in the past century, the combination of Marxist, Jewish banker and Zionist working together like the blood brothers that they are. It was Mr. Jacob Schiff and the Warburgs of Kuhn, Loeb and Co. who financed Lenin and Trotsky and who helped arrange for their passage through Germany (then at war with the liberal Kerensky government) and into Russia so that they might set up

Bolshevik power (the dictatorship which, in its first central government, comprised one Negro from America, 17 racial Russians and 371 Jews, according to the Senate Overman Report, 1919.)

Acheson and McCloy speak for Frankfurter, Marxist-Zionist, while Buttonwieser speaks for Kuhn, Loeb and Co., banker-Zionist.

The combination reminds us that Communism in Russia has proved to be monopolistic state capitalism, pooling all the wealth and the labor of the people into one big holding company, of which Mr. Vladimir Ashberg, international banker already famous before he financed Trotsky's Red Army in 1917 and 1918, is and has been since those years the banker for the Soviet Union Holding Company, the dictator of finance over all the Russians, as well as over his fellow Jews.

Gentile bankers were destroyed by the Bolsheviks as capitalists!

The combination also reminds us that Kaganovich, whose sister is Mrs. Joseph Stalin, is Commissar of Heavy Industries, dictator over the great cities of slave labor—in which he uses hundreds of thousands of fellow Jews as bureaucratic underlings, with petty privileges in exchange for their support, but does not enslave Jews.

The combination reminds us also that Anna Pauker, Jewish dictator over the Roumanians, and Rakosi, dictator over the Hungarians (described by John Gunther in *Behind the Curtain* as Jewish and one of the six most powerful Communists in the world), now live in the palaces of the departed gentile kings and industrial geniuses and are rapidly pooling all the wealth and labor of their respective slave peoples into Communist holding companies for complete exploitation.

### TWO WORLD EMPIRES ?

The German industries specifically to be  
(Continued on page 2)

## The Peekskill Incident

By Emanuel M. Josephson  
New York City

The Robeson-Peekskill incident has brought out into the open and exposed to public gaze the tremendous power and influence in the local, State and Federal governments of the supporters and sponsors of America's Communist Conspiracy, its thorough organization and its deep-laid and long-range plans.

The incident was obviously intended by the conspirators as a deliberate incitement to riot. It was planned to demonstrate to the Communists and their fellow-travellers, that their influence in high government circles—and their protection—is so complete that they are free to flaunt even the basic laws of the Country with absolute impunity.

The Supreme Court, in a decision written by the late crimson Justice Frank Murphy, had ruled that it is a violation of freedom of speech and of the Bill of Rights to suppress subversive or seditious activities unless they involved immediate and pressing danger. This decision was obviously prepared and planted for the purpose of establishing a precedent that would prepare the way for releasing the eleven Communists, if and when convicted of the charge of conspiracy

(Continued on page 3)

## KUHN - LOEB

(Continued from page 1)

spared further dismantling are steel, synthetic oil and rubber. The Jewish bankers never have been able to dominate American steel and oil industries, and it is suggested that observers watch for the invasion of steel and oil markets by the bankers from plants in Germany (along with invasion of the oil sources of the Near East by way of Israel).

The role of the banking firm of Lehman and Co. is not clear in Europe, but it is not to be overlooked that the head of ECA, spending tax money not only to bolster the Socialist governments of Europe but to lubricate certain favored industries, is Mr. Paul Hoffman, whose Studebaker automobile company is under heavy obligations to Lehman and Co. Washington observers say that but for his relationship with the now Senator Lehman (a banker-Zionist long friendly to Moscow) Mr. Hoffman would not have been appointed to the ECA job. With your tax money, ECA guarantees American investors against losses if the Socialists confiscate the investments!

It is significant, too, that Mr. Truman, in a recent message to Congress, declared that the United States "must be willing to accept greater competition from European suppliers."

Mr. Truman also called for spending more tax money to build roads into the world's jungles to facilitate the investment of American capital, and perhaps to guarantee it against losses.

It would be revealing and perhaps important to know how much of it will be American capital and how much of it will be Zionist, before our tax money is spent.

The guilt is not wholly Zionist: some of the gentile investors have turned internationalist and joined the Zionist New Deal. Will Clayton, cotton exporter, is one of them. He became Assistant Secretary of State—and a Congressman revealed that Anderson, Clayton Cotton Co. has benefited to the extent of \$525,000,000 in sales under the Marshall Plan. Clayton now is supporting the United World Federalists, along with the Warburgs of Kuhn, Loeb and Co.

Is the Zionist empire to be developed by concessions in Germany, and American tax money all over the world, and are the products, made by cheap labor, to be sold back into the American market in competition with American capital and labor?

If the Kremlin were turning against the Jews we could understand that its old friends and benefactors, Kuhn, Loeb and Frankfurter, would want to take Germany away from the East and rebuild her factories and manpower for use in once more crushing the Kremlin. But such is not the case, despite some misleading stories in the press. There is a tense racial problem in Russia,

as there always has been since the "minority" dominated secret police began destroying gentiles while Jews climbed in the bureaucracy; and some Jews themselves have become restive under necessary restraints. But the Kremlin—unlike the enslaved Russians—is not anti-Semitic.

We must assume then that the re-invasion of German industry by Kuhn, Loeb and Co. and the new policy toward Germany is either purely for exploitation purposes, or else that it is part of a world plan too fantastic for the gentile mind and heart—a plan suspected of dividing up the world into East and West spheres, then bringing about, or aiding or at least exploiting, the long prophesied war between the East and the West. This would be the "final" war to destroy capitalism, according to the tenets of Communism, which say that such a war is necessary for the triumph of the world government of the proletariat.

The peculiar relationship of Zionism to Communism, their common origin in the revolutions stemming from the ghettos, their growth side by side by means of the same revolutions and the same gentile wars, which have brought the gentile nations to the verge of destruction, their common aim of world government and Marxism, and now the rapid completion of spheres of influence—Communism in the East, Zionism in the West—are so loaded with suggestion that we cannot overlook the possibilities of a common strategy board over both the East and the West. Frankfurter and Kuhn, Loeb would surely be represented on such a strategy board.

It is true that the Communists outlawed Zionism as a rival world power inside Russia soon after the Revolution in 1917; but it is not clear or authenticated that they actually destroyed any Jews because they were Zionists. They reported that they exiled some to Siberia and banished others from Russia. That may have been to give Zionism a clean bill of health in the West and to make even the Russian people feel that Communism was not pro-Jewish.

Those who were banished, or many of them, came West and began working with organizations promoting Zionism (which already had come from Russia and had acquired a Marxist base).

New the Zionist Organization of America and its official subsidiary, the American Jewish Congress, and the ruling party in Israel, MAPAI, all embrace Marxist measures, in the economic and the racial spheres, including the communist-inspired "civil rights" laws and proposals to legally suppress criticism of Zionist or other Jewish activities.

What difference is there between Communism and Zionism and what difference would it make which ruled the world?

## THREE COUNTIES DEFEAT DULLES

By PETER MOLYNEAUX

(Peter Molyneaux is the editor of the Southern Weekly, published in Dallas, Texas.)

Shall the foreign ideologies which dominate the sentiment of the conglomerate population of Harlem, Brooklyn, and the Bronx determine the economic and governmental policies of the United States?

This challenging question has been placed squarely before the American people by the results of the election for United States Senator in New York.

Three counties, out of sixty-four counties in the state, elected Herbert H. Lehman, Democrat, over John Foster Dulles, Republican.

Outside those three counties it was a Dulles landslide.

The three were New York County (Manhattan, including Harlem), Kings County (Brooklyn), and Bronx County, popularly called "the" Bronx.

More than 70 per cent of the people living in those three counties are foreign born or of foreign or mixed parentage.

More than 70 per cent of the voters of those three counties who participated in the senatorial election voted for Lehman. They provided more than half of his total vote in the state and they gave him a majority of 769,504. And that majority would have been at least 100,000 more had not so many of Vito Marcantonio's followers voted the straight American Labor party majority of mayor which had no candidate for United States Senator. But the majority of 769,504 in Harlem, Brooklyn, and the Bronx was more than enough to elect Lehman.

Lehman carried only two other counties in the state, only one (Albany County) outside the city of Greater New York, but together they added only 32,285 majority to his huge Harlem-Brooklyn-Bronx majority, thus making it 801,789.

On the basis of such a result as this, President Truman has declared that the election of Lehman was a great public endorsement of his program for a socialistic, politically managed, coercive economy. And he said that it brightens the prospects for the Democrats in next year's congressional elections.

But does it indicate anything of the kind?

In the three counties—comprising Harlem, Brooklyn, and the Bronx—1,833,226 voters, most of them alien-minded, have favored Lehman by more than 7 to 3, while outside those three counties, 3,114,366 voters of New York State have favored Dulles by more than 6 to 4.

Which of these two groups of voters is more nearly representative of the people of the rest of the United States?

There is nothing in this result for President Truman or the managers of the national Democratic party to rejoice over.

The plain truth is that the situation revealed by the New York election presents both a challenge and an opportunity to the Republicans.

It eliminates the influence of Dewey in national party affairs and it ought to deal a death-blow to the "me-too-ism" that he represented and that has prevented the Republican Party from courageously facing the real issues which the American people must settle.

Those issues can be summed up now in the question: Shall the foreign ideologies which dominate the sentiment of the conglomerate population of Harlem, Brooklyn, and the Bronx determine the economic and governmental policies of the United States?

What answer will the national Republican Party make to that question?

And what about the conservative Democrats of the South? Will they continue to line up as the national allies of Harlem, Brooklyn, and the Bronx?

## Thank You, Friends

There are times when the pen is mightier than the sword. But this is one time we are truly at loss for words to express our thanks for those who responded to our recent appeal. From the bottom of our hearts we thank each and every one who helped us through this emergency. We particularly thank the young lady who insisted we take 350 dimes as "my share in the fight to keep America free." We reluctantly accepted this contribution as we knew this \$35.00 represented tips for many hours of hard work. We are well aware that many sacrifices had to be made, and we can only hope and pray that Our Lord will bless you all for the sacrifices made. Then too, we want to thank the many readers who sent in anonymous contributions. Because of your loyalty and trust, we pledge to continue in this fight as long as God gives us the strength.

At this time of the year, when we are all busy thinking about the feast of Christmas, the Editor and volunteer workers at COMMON SENSE wish all our readers a Very Merry Christmas, and good health, happiness and blessings without measure in the New Year.

## The Peekskill Incident

(Continued from page 1)

to overthrow our government. And it is now being made the basis of the appeal in the case of the eleven tried and convicted by Judge Medina.

At Peekskill, the Communists proved that they were sufficiently protected and influential to commit, with absolute impunity, the acts which fellow-traveller Murphy and the Associate Justices had ruled were clearly a violation of the law. Deliberately and with malice aforethought, on two successive Sundays, they incited to riot the loyal citizenry of Peekskill and the surrounding country by flaunting their subversive activities. They invaded the Sabbath of a peaceful community with a regimental army of traitors and subversives armed with baseball bats, knives, rifles and guns. Many of these conspirators were attired in uniforms intended to pass as U. S. Army uniforms.

The conspirators announced well in advance their intent to incite the loyal citizenry to riot. Robeson made it clear in his public utterances that his (and his followers') attitude in the war which the Soviet is waging on us, is traitorous. A loyal citizenry would be expected to react violently to treason. Sad indeed would be the status of a people who did not rise to the defense of their land. It is to the credit and glory of Peekskill that its loyal citizenry rose as a body to resist this traitorous invasion.

Some of the local and State officials reacted in an entirely different manner than did the loyal citizenry and the veterans. They undertook to aid and abet the subversive conspirators. They failed to uphold the law, and to prevent the meeting by denying it a permit, or by injunction, despite the openly and loudly expressed intent of the conspirators to violate the law and incite riot. Governor Dewey, a short time before, had refused to intervene in the Bell Aircraft strike to protect the company property against the subversive and rioting strikers. But, he promptly

heeded the demand of Robeson's Communist cohorts that he protect them in their conspiracy to incite riot. An army of nine hundred deputy sheriffs was provided to suppress the veterans and loyal citizens arising to defend their community and land. The veterans discovered that their martial activities were only acceptable to the powers-that-be when the defense of Russia and the Communists was involved, as in World War II. They discovered that to rise to the defense of our Country against the Soviet Union and its Communist plague is an offense to our rulers. They discovered that Communists and subversives are so completely protected and influential that only those who oppose them feel the heavy hand of authority.

It has become almost impossible to secure publication in this Country for the books of any man opposed to Communism and New Dealism. If published, book reviewers either ignore or attack them. The more influential newspapers generally ban advertisement of such books. Radio generally censors or bans any broadcasts not approved by the radical elements.

One source of the money and influence which enables Communists and fellow subversives to flaunt the decent and patriotic element has recently been revealed to be the Rockefeller Foundation. A grant of \$110,000 has been provided for the harassment of investigators of subversive activities in the guise of "a research project for the study of government control of subversive activities." This is under the direction of Professor Robert E. Cushman of Cornell University and Professor Walter F. Gellhorn of Columbia University, who has been labeled a Communist fellow traveller by the Congressional Committee.

All efforts to stage a patriotic rally led by veterans at Peekskill have been blocked. Tremendous pressure has been brought to bear and has succeeded in preventing the holding of such a meeting. Veterans and loyal patriotic citizens have been put completely in the wrong and on the defensive by the overwhelming power of the "malefactors of great wealth" engaged in a conspiracy to subvert, undermine and destroy our constitutional government.

One begins to wonder: "Is this the America of our childhood? What has happened to the red-blooded patriots of our childhood days?"

Let us not be deceived by the sham of quest of peace by these conspirators. They are waging a war that is far more devastating and insidious than the "cold war". They are waging a "hot" war through the labor unions (and dominate all of them whether they be labelled red or not) that is nothing less than a continuous Civil War which is intended to weaken, disintegrate and destroy the nation from within.

The loyal elements of the land have been diverted, out-manuevered and often sadly defeated as a result of their failure to see through the camouflage of the real enemy in our midst. Much time has been wasted thereby. The issue is urgent and critical, and our time is short!

## N. J. Assemblyman T. J. Tumulty Charges Religious Slurs

**DRAMATICALLY ENDS CIVIL RIGHTS DEBATE WITH RED-FRONTIER, ROGGE**

Saying that he would not remain on a platform with a man "slurring my Catholic faith," Assemblyman T. James Tumulty broke off a civil liberties debate with former assistant U. S. Attorney General, O. John Rogge at Fuld Hall, Newark, N. J.

Assemblyman Tumulty's abrupt exit was caused by Rogge's sneering remark concerning the Catholic Church for "calling a holy war against Communism." In the past, Rogge added, "the Catholic Church has called holy wars against Mohammedanism."

Already under strain, because of snide references to his Church, Tumulty jumped to his feet exclaiming: "That's not true!" When Rogge sought to continue, Tumulty protested, and Rabbi Joachim Prinz, moderator, intervened.

The Rabbi told Tumulty that he was sure Rogge would assure him that he had not meant to attack the assemblyman's religious belief. Rogge, however, refused to give such assurance or apologize, blandly remarking, "If I have misstated the facts, I'll be glad to have it called to my attention."

With that, Assemblyman Tumulty walked off the rostrum and out of the auditorium.

Sponsored by the Jewish Community Center, the debate had as its topic, "Does the Conviction of the 11 Communists Endanger our Civil Liberties?" with Rogge taking the affirmative and Tumulty the negative.

In his main address, Rogge, who was prosecutor in the mass sedition trial of alleged Fascist sympathizers in Washington after the war, repeatedly affirmed his belief in "an almost complete freedom of speech and thought." Along with a few digs at Judge Medina, he referred to the trial of the 11 Communists as a "trial of doctrine," arguing that no overt acts were charged. "They were making it a crime to teach Marxism, that's all," he said.

Rogge blasted the loyalty oaths, stating that they were part of a "pattern of oppression," and named former Attorney General Tom Clark (now Supreme Court Justice) as "one of the architects of that pattern." The list of subversive organizations compiled by Clark was also rapped by Rogge who called it a system of "guilt association."

Assemblyman Tumulty, who followed Rogge to the rostrum, insisted that the trial of the 11 Communists had actually strengthened America's civil liberties. He stated that the defendants were allowed attorneys, ample time to prepare a defense, were tried by a jury of peers and, released on bail after conviction, they will be given the right to appeal to the Supreme Court.

The 11 Communists, he explained, were acquitted. (Continued on page 4)

## "FRIGHTENING"

When Dean Gildersleeve of Barnard College said Zionist control of America's press and communications system is "frightening" she told only part of the story. In addition to banking systems and many principal industries, Zionists represent a powerful force on Wall Street where they hatch aggressive Marxist plans for ruling American government and gaining world domination.

King-makers! Country-Breakers! They are exposed in ZIONIST WALL STREET! Learn who they are; what they are plotting! Read:

# Atom Bombs Away

(Continued from page 1)

and are satisfied of the likelihood of their accuracy.

All the military plans of the United States Government and Britain for meeting Russia have been based on the assumption that Russia would not have the atom bomb until 1957. Yet today Russia is making four atom bombs a month. This production will be stepped up considerably in the near future. Soon she will have a substantial stock-pile.

Some of the scientific information that has enabled Russia to achieve the atom bomb so far in advance of American expectations, may have leaked through those German scientists that have been taken over and are now being used by Soviet Russia. Some may have been obtained by Russian spies. But Russia could not have made the progress she has made if traitorous American officials had not passed it out to Soviet agents. And as yet not one of those officials guilty of this treason has even been apprehended.

All of Soviet Russia's war plans are proceeding according to her plan. She has secured an atom bomb base in Central America. She has plans looking to the seizing of Turkey, Afghanistan, Iraq, Iran and other countries in the Near and Far East—countries in which, if the United States is successful to stave off atomic attack by Soviet Russia, and be able to reach by her own atom bombs the vital places in Soviet Russia, it will be absolutely necessary for the United States to have bases.

It is estimated that Turkey could be invaded and subjugated by four airborne divisions. Yet Soviet Russia is well along in the development of her plan for a total of 100 airborne divisions.

Soviet Russia has plans for a total of 600 fighting divisions of ground troops.

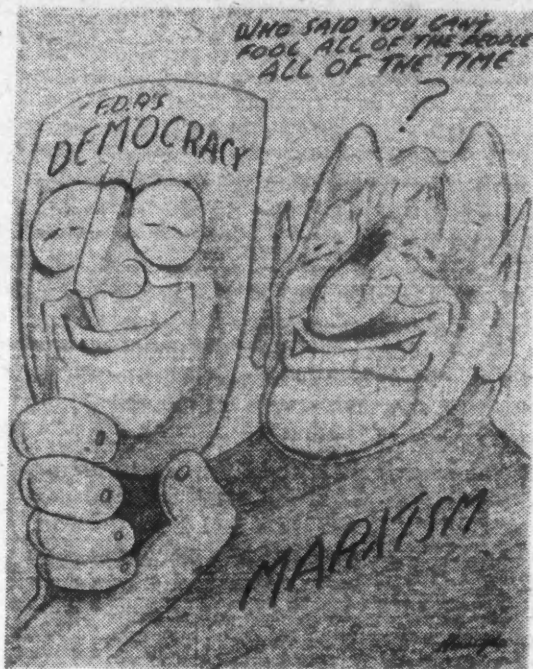

She has a vast fleet of submarines, each capable of launching atom bombs on the world. And she has by all odds the finest Arctic fleet of planes in the world. This at a time, incidentally, when the United States is woefully backward in plans to defend Alaska, or, indeed, her own continental territory and Canada from a plane attack across the North Pole.

Much of the information contained in the last nine paragraphs comes to us from an Englishman, Mr. Kenneth de Courcy, editor of the widely known Intelligence Digest. We have known Mr. de Courcy for some years, and have a high opinion of his knowledge and integrity.

Of course it may be that Soviet Russia will never actually start an atomic war. But it can be said with a large measure of certainty that she plans, by 1952 or 1953, to have bases, or submarines, from which an atom bomb missile can be directed at every vital point in the United States, in Britain, and doubtless in other Western countries. Then Soviet Russia will point a gun at the Western nations and make known her terms.

We do not, however, rely only upon Russia's past record. There is much more important evidence. First-class intelligence sources have brought in documentary and near-documentary evidence of Russian General Staff plans which leave us in no shadow of doubt as to Soviet intentions.

A couple of years ago one of the popular magazines published a fanciful article, telling of a call at some future time by the Soviet Ambassador on the President of the United States. The Ambassador calmly announces that a score or more atom bombs have been brought into the country and carefully placed at some of the most vital points in the country, and tells the President that these will be detonated by remote control unless, within an hour, the

Government of the United States hands over the United States to Soviet Russia, to do with as she pleases.

Then the writer asks the reader the question—"What would you do?"

The implication is that there would be a case for surrendering the liberties and possessions of 150 million Americans to the tender mercies of Soviet Russia!

And this very alternative will be placed before America within the next four years—unless America wakes up and moves fast.

(Continued next issue)

## N. J. Assemblyman T. J. Tumulty

(Continued from page 3)

cused of banding together with the intent to overthrow the United States government by violence. "The Communist Party was no innocent victim. The 11 defendants were no innocent children. They are paid and trained workers—they know the score!"

Praising the Smith Act, under which the Communists were indicted, Tumulty said it was "the only way the U. S. can fight against enemies from within," and protect our basic liberties. "Will we make our country better by bringing in total slavery?" he asked.

In reference to loyalty oaths, Assemblyman Tumulty commented: "The only ones who don't like them are those who are afraid they'll be caught lying!"

Although the Jewish Community Center issued a statement, following Tumulty's exit, and said they regretted a guest speaker's reference to a religious group, it did not publicize O. John Rogge's Communist front affiliations. They in-

## Harry Hopkins, Zionist

We tip our hat to Fulton Lewis, Jr. for his patriotism and enterprise in exposing some of the traitorous activities of those in the employ of our government who cooperated with the Marxist forces of the Soviet Union in undermining our country. Major George Racey Jordan deserves much credit for furnishing this information but he will be smeared by the Marxist-controlled papers, as have others before him who dared expose such activities.

Major Jordan definitely established that Harry Hopkins was one of the most active who supervised the smuggling of tons of State Department confidential records through the air field at Great Falls, Montana, for transport to Fairbanks, Alaska, where Soviet flyers took the seven thousand planes we gave them, loaded with correspondence.

It is a waste of time and sentiment to blame the Communist Soviet Union for accepting the planes free, as well as eleven billions of dollars of equipment and material from trucks to complete factories, all paid for by the taxpayers. Uniformed people will probably say that it is too bad Harry Hopkins is dead, making it impossible to place the blame where it belongs and hang him, as so many say about F.D.R., but the truth is that these two were only a small part of the Zionist-Communist gang which has been systematically robbing and bankrupting us for at least sixteen years. Harry Hopkins real name is Harry Al Raschid, a Zionist. He was inside man at the White House then for the Zionists as is David Niles (Neyhus) and Felix Frankfurter today. Harry Hopkins may be dead BUT THE ZIONIST PLAN IS NOT DEAD. It is more active than ever. Harry's son, David, formerly of Enterprise Studios, is now in the gravy with the Marshall Plan setup in France where Otto Frankfurter (brother of Felix Frankfurter) who served two terms in the pen, is also enjoying the gravy while the American citizens pay, and pay, and pay. It is high time some of the hyphenated citizens are hung and their property confiscated.

clude: American Labor Party, cited as subversive by the Committee on Un-American Activities; American Youth for Democracy, cited as subversive by the Attorney General; Civil Rights Congress—International Workers Order—Joint Anti-Fascist Refugee Committee (all cited as subversive by the Attorney General) and Progressive Citizens of America, cited as subversive by the California Committee on Un-American Activities.

In addition to which, Rogge is not only supported by Soviet agencies, press and radio, but he has participated in activities supporting arrested and indicted Reds.

Assemblyman Tumulty, a Jersey City attorney, is a graduate of Fordham University and the John Marshall Law School. A co-author of the Whorter-Tumulty Loyalty Oath Bill, Mr. Tumulty is also a member of the All-American Debating Society.

It is interesting to note that Rabbi Joachim Prinz, who acted as moderator for the debate, is vice president of the AMERICAN JEWISH CONGRESS, leading Zionist organization in America, whose "Law and Social Division" forced printers to stop work on COMMON SENSE. Now a member of the executive committee of the World Jewish Congress, Rabbi Prinz was ordered out of Germany in 1937 when Germany was purging its country of COMMUNISTS.

Strange, isn't it, that the Jewish Community Center should ever have allowed Rogge on their platform—even in the interest of discussion of current events? How much truth is there in the rumor COMMON SENSE has heard that the American Jewish Congress is paying Rogge \$1000. per evening for his appearances on their platforms?
